Tutorial No. 8

1. Explain algorithm for allocating space from maps(malloc) with example
2. Explain freeing swap space with example
3. Explain below operations with swapper algorithm
   a. Swapping process out
   b. Fork swap
   c. Expansion swap
   d. Swapping process in
4. Describe demand paging with data structure
5. Write a short note on
   a. Driver interface
   b. Terminal driver
   c. Streams
